

# Guardian EMS seat

ADJUST • SECURE • CARE

H.O. Bostrom's Guardian EMS attendant seat is engineered to meet the demanding needs of EMS personnel and patients, offering safety, comfort, and reliability.

## Ready for any occupant

- The only seat to include both an optional integrated child seat (ICS) with 5-point seat belt and infant seat hooks in a single seat
- 3- or 4-point (with quad retractors) seat belt

## Safety first

- Dynamically tested to SAE J3026 with a HIC value over 80% lower than the required limit
- Meets KKK-1822, SAE, and FMVSS 207/210 standards
- Crumple zones engineered into the frame to absorb energy in the case of a crash

## Comfortable and ergonomic

- High-density, contoured foam cushions
- Ergonomic towel bar adjustment handles with antimicrobial coating
- Swivel seat base with no pinch points

## Durable and easily cleaned

- Coated vinyl upholstery resists stains and abrasions
- Minimal seams that are more durable than vacuum-formed vinyl
- Removeable seat cushion that bolt on for quick repairs
- Corrosion-resistant powder coated steel frame

Shown with 4-point seat belt, ICS, reclining back, swivel, and riser.

## Customize your Guardian seat

- Fixed or reclining back with double-locking recliner
- 3-point or 4-point seat belt
- Swivel, riser, or locking cabinet
- Optional add ons: armrests, seat occupancy sensor, heated seat
